DODGER STADIUM—1962 . . . Photo of scale model of new Dodger Stadium, now under construction in Chavez Ravine, where Los Angeles major league baseball will be played in 1962. Seventy percent of the 56,000 seats in this Stadium will be in the baseline area. There will be SEVEN front rows. Terraced parking will surround the Stadium, with parking for 16,000 cars and horizontal walking to your section of the grandstand. A carefully-planned network of roads, including twenty-two lanes IN and five OUT will be reversed after games. Comfortable chairs of the latest design, baseball's finest lighting system, fifteen concession stands, twenty-four powder rooms for the Ladies and twenty-four lounging rooms for men, an acoustically-tested sound system and a playing field of symmetrical balance will be included in a stadium which has been designed with the comfort, convenience and pleasure of our fans in mind.
